Investment Objective

The Global Managed Fund seeks to achieve long term capital appreciation by investing principally in a balanced portfolio of global fixed income and equity instruments. Diversification is achieved through the allocation of capital to our Global Equity and Global Fixed Income funds. Weightings are driven by our outlook for each of the underlying asset classes on a medium to long term view.

Background

The Haussmann Rech Unit Trust Scheme is a Mauritian domiciled collective investment scheme established by African Alliance who in turn is an investment banking group operating in Africa. We provide local and on-the-ground investment banking services across the African continent.

Since 1992, African Alliance has built a substantial infrastructure in terms of offices and professional teams throughout the continent to meet the investment banking needs of our clients. These include national governments, municipalities, parastatals, pension funds and large to medium-sized public and private companies.

African Alliance's asset management business operates in a number of SSA countries managing in excess of \$1bn of institutional client assets.
